

Bluetooth

Ported SoftDevice Controller

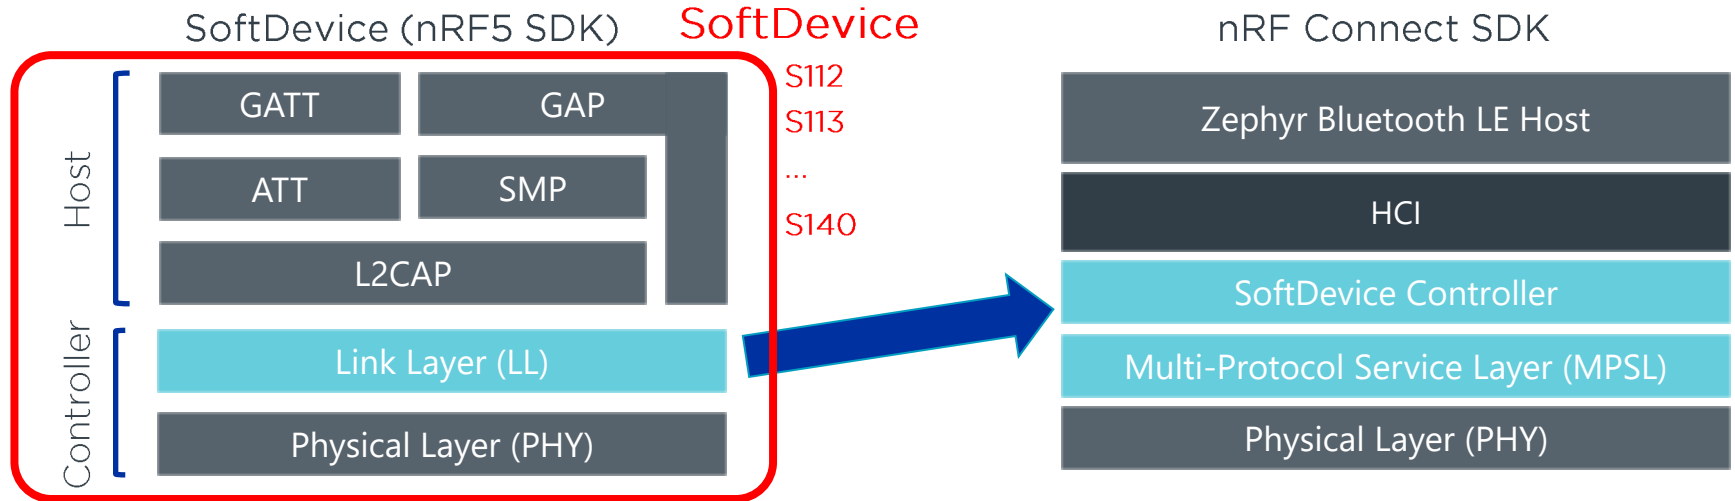

- Market leader in Bluetooth LE in large part to our nRF5 SDK + SoftDevice
- Link Layer (LL) enables best in class interoperability between SoC and smartphones and is difficult to get right
- Ported the SoftDevice LL to nRF Connect SDK
 - Ensures best in class smartphone interoperability in nRF Connect SDK vs nRF5 SDK + SoftDevice

SoftDevice

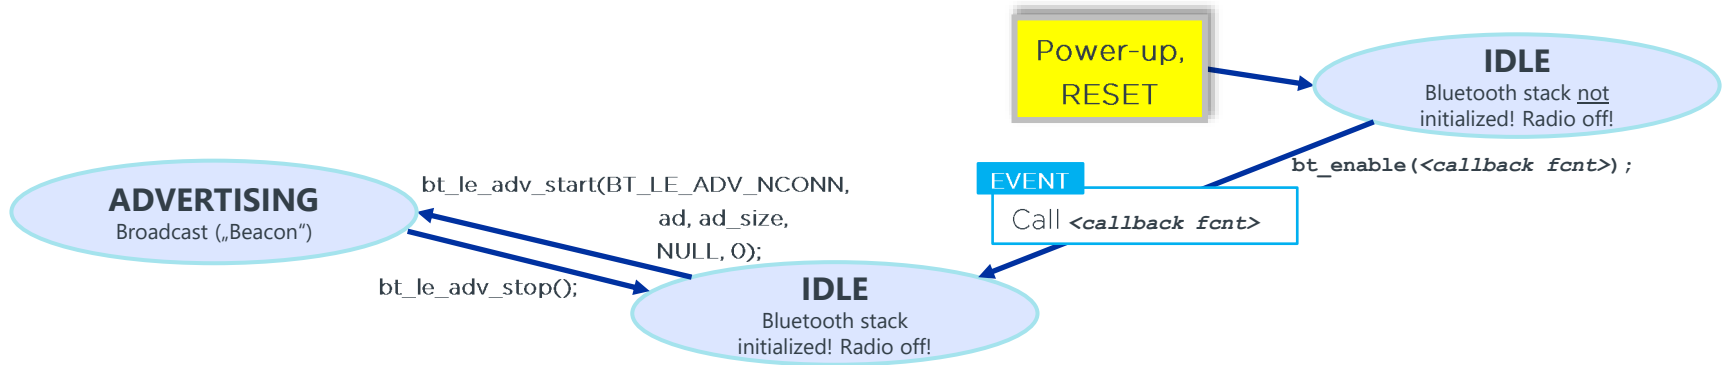

SoftDevice Controller

- The standalone SoftDevice Controller library is now the default Bluetooth LE Controller for Bluetooth samples
